

Richmond Dragway makes adjustments to Time Schedule

“When we released our 2008 schedule with the change to Saturdays, we got a ton of positive response from our racers, however they were concerned about having to work and do Little League and other activities on Saturday mornings. With that in mind, we are going to adjust our time schedule for Saturday racing to compensate for these conflicts” stated Johnny Davis, track general manager.

March, April, and October (November if applicable)

Saturdays – Gates open at 11 am, time trials at 12 noon, tech closes at 2:30 pm and eliminations at 3 pm. On select events where Pit Bike Challenges are scheduled, gates will open at 10 am with a Pit Bike Challenge at 10:30 am and time trials at 12 noon.

May, June, July, August and September

Saturdays – Gates open at 2 pm, time trials being at 2:30 pm, tech closes at 5:30 pm and eliminations at 6 pm. Pit Bike Challenge Saturdays will feature a 1 pm opening time and a Pit Bike Challenge beginning at 1 pm with regular time trials at 2:30 pm.

Please also note that there are events during the season where gates will open earlier or later for specialty races such as the Performance Dynamics Top ET Klash events, the National Corvette Challenge and Test and Tune/Heads Up Saturdays. Please see the schedule for these details.

“We certainly want to continue to be a track that is committed to our Bracket Program and doing the right thing for our racers and I sincerely believe that this is a step in the right direction”
